

The Shen-Ion HarmoniK™ Aqua-Vitaliser System

The Shen-Ion HarmoniK™ Aqua Vitaliser System was created using multiple technologies from Europe and Asia. It is used to activate and program water with multiple harmonic, vitalising, and beneficial vibrations similar to fresh, mountain spring water.

Using the research methods developed by Dr. Masaru Emoto (author of “The Message of Water”), water treated with the Shen-Ion HarmoniK™ Aqua-Vitaliser System shows a radiant water crystal structure.

Vitalised drinking water tastes better, strengthens the functioning of the entire immune system, energizes body cells and organs, and has a vitalising effect on the blood.

Tea, coffee, and other food and drinks prepared with vitalised water taste better and feel more energizing.

Fresh fruits and vegetables soaked in Shen-Ion HarmoniK™ vitalised water have a better taste and higher vitality.

Vitalised bathing water supports skin functions and results in smoother, better looking skin.

Feel good through energised clothing

Clothing washed in Shen-Ion HarmoniK™ Aqua-Vitalised water creates a positive feeling in your body. The activated water is softer and requires less detergent or softener than usual.

Activated plant growth

Shen-Ion HarmoniK™ Aqua water enhances the growth and vitality of plants. This can be profitable in the cultivation of food crops, ornamental plants, fruits and vegetables.

SHEN-ION HARMONIK™ Aqua-Vitaliser available in different sizes according to application area

SHEN-ION HARMONIK™ Aqua-Vitaliser Stick

SHEN-ION HARMONIK™ Aqua-Vitaliser II

SHEN-ION HARMONIK™ Aqua-Vitaliser Maxi

Reduced lime residues in pipe systems

The pulsing frequencies of the Shen-Ion HarmoniK™ Aqua-Vitaliser are absorbed by the water and carried on throughout the pipe system. This can reduce clogging in your pipes caused by lime and residues.

Vital water in swimming pools and garden pools

Swimming pool water vitalised by the Shen-Ion HarmoniK™ Aqua Vitaliser System shows a reduced count of bacteria and germs. This means less chemicals need to be added to keep the water clean.

Different sizes of vitalisers available

The Shen-Ion HarmoniK™ Aqua-Vitaliser System is available in various sizes for different ranges of applications.

The smallest version, the Shen-Ion HarmoniK™ Aqua Stick, can be attached to the tap and is also useful for travel.

Medium-size devices are designed to provide vitalised water to houses, flats, offices, restaurants, cafes, hotels, bakeries, hairdressers and other (industrial) businesses. Fountains, water facilities and swimming pools may also be energised with this device.

With the largest Shen-Ion HarmoniK™ Aqua System the drinking water of a village or even a complete town may be vitalised.

No maintenance and easy to install

Shen-Ion HarmoniK™ Aqua-Vitaliser Systems are installed ideally in a location where the water pipe enters the house. The systems are maintenance-free and function permanently, as long as the original casing is not damaged or tampered with.

Changes in the crystalline structure of water molecules after activation:

Photographs of frozen water samples showing the energetic quality of water (according to G. Schoen)

Municipal tap water.

The same tap water after activation with the Shen-Ion Harmonik™ Aqua Vitaliser.

The more symmetrical crystalline structure and greater intensity of rainbow colors indicates higher vitality water.

Holy water from Lourdes, France.

(method E.Braun, according to Emoto)

Municipal tap water.

(method E.Braun, according to Emoto)

Same municipal tap water after activation.

(method E.Braun, according to Emoto)

The more refined crystalline structure indicates higher vitality water after activation. Similar crystals are also found in high mountain spring water.
